

TSHEPISO MOTSHELE

57 Heerengracht, Foreshore, Cape Town, 8001

066 253 1694

Tshepismotshele9@gmail.com

I have great understanding of how technology and IT solutions function. I have great communication skills which also allows me to be able to communicate technological issues well with colleagues and those that might not have knowledge in the area. I am fast at adapting to unexpected situations, comfortable to work in a team or as an individual.

One of my most outstanding skills is the ability to solve problems that I encounter. All factors are considered before I decide a solution in a situation.
